

Message from the PRBIS President 2017

It is always my pleasure to congratulate everyone in the Brainiacs Family on another a hugely successful year.

Due to the hard work by our Staff, the many volunteers, the Board of Directors, and the Executive Director, Debbie Dee, along with the generous funding from many sources, we are able to provide essential services and assistance to our members.

The "Powell River Brain Injury Society" continues to move forward towards Social Enterprise, creating huge connections with the Food Bank, and with our community.

The future of the Powell River Brain Injury Society is very bright, and I can see many successes coming our way.

The faces here sometimes change, as people come and go for many different reasons, but there is something about this group that touches the soul. We all become better, stronger, calmer, ... and we smile more. The essence of this place just stays with you.

Thank you all,
Doug Logan,
President.
